EDWARD LINDSAY,
Veterinary Shoeing Forge.

CROMWELL COAL PITS.
NICHOLAS & CO.

Reg to inform the public of Cromwell and the surrounding district that they have purchased the Lease of the above-named Coal Works, and that they are now in a position to supply COAL of excellent quality on the shortest notice, and at the same rates as heretofore—viz., 20s. per ton at the Pit, or 32s. per ton delivered.

NO INCREASE IN PRICES!

NICHOLAS & CO.,
Coal Merchants.

DAVID A. JOLLY & CO.,
WHOLESALE
AND
FAMILY GROCERS,
AND
WINE AND SPIRIT MERCHANTS

D. A. J. and Co. desire to intimate to the people of Cromwell and surrounding districts that they have opened their new premises, and as they intend devoting their attention exclusively to the Grocery and Wine and Spirit trade, confidently hope, from their connection in Dunedin, to be in a position to place before the public a genuine class of goods, well and carefully selected, at prices that cannot fail to give general satisfaction. They would respectfully invite attention more especially to the following articles in stock:—

Teas of excellent flavor, in chests, half-chests, and boxes
Coffee not to be surpassed in quality
Cocoa and Chocolate of the best brands
Sugar—crystals and crushed loaf
Raisins—Muscatel, Sultan, and Eleme

I. HALLENSTEIN and Co.,
GENERAL IMPORTERS,

CROMWELL, QUEENSTOWN, ARROWTOWN, & MELBOURNE.

WE have much pleasure in calling the attention of the inhabitants generally to our Large Stock, as enumerated in this advertisement. It does not detail all the articles we keep, for to do so would be almost impossible. We have endeavoured to enumerate all the principal articles of each class; but every want necessary in a Mining, Agricultural, and Pastoral community can be supplied.

All our purchases being for cash, we thus possess an advantage that few are able to avail themselves of.

We therefore respectfully solicit a continuance of the patronage hitherto bestowed, with the conviction that all orders entrusted to our care will be promptly executed, and the articles found to be of good value.

Drapery.—The attention of Ladies is respectfully directed to this Department. It will be found replete with all the latest novelties from the Melbourne markets, and arrangements have been made for regular shipments per each steamer.

Dresses, in silks, fancy and black; alpacas, challies, mohairs, winceys, muslins, prints, coburgs Shawls, all-wool plaids, French merinos, skirts, jackets, &c.

Hosiery, gloves, handkerchiefs, laces, trimmings of all kinds

Ladies' and Children's Underclothing.—Our stock will be found the largest and best-assorted on the Gold-fields

Ladies' and Children's Hats, trimmed and untrimmed

Feathers, flowers, corsets, chignons, &c.

A large assortment of white and coloured flannels, serge and cricketing; calicoes and sheetings; and every other article required in the trade.

Slop Department.—Men's Suits, Paget and sac; boys' ditto, Leopold, Stanley, sac, and knickerbocker; Trousers and vests, all kinds

Trousers, in silk mixture, doeking, tweed, cotton, Bedford cord, and moleskin

Shirts—white dress, regatta, Crimean, serge, Scotch twill, tweed, and jain

Pants and under-shirts, in flannel, lambswool, serge, merino, and cotton

Men's and boys' Hosiery, of all kinds

Hats—straw, merino, tweed, silk-stitched, felt, and plush, in all the latest shapes

Waterproof coats, overalls, leggings, and sou'-westers; monkey jackets and pilot coats

All the above Goods are to our special order.

Boots and Shoes.—A splendid assortment, consisting of:

Ladies', girls', and children's boots, in kid, cashmere, morocco, and leather

Slippers—canvas, patent leather (plain and fur-trimmed), sheepskin, and carpet

Men's and boys' boots—elastic-side, Balmoral, Blucher, Wellington, half-Wellington, and riding boots; Colonial water-tights, made to our order in Melbourne

Gum boots—Hayward's North British and Liverpool; Hardy's nuggets.

Carpets.—In tapestry, felt, all-wool kidderminster, drugget; hearth-rugs.

Matting.—China and coir; oilcloth, door-mats.

Ironmongery, Mining Tools, and Agricultural Implements.—Anvils, axes, augers, adzes, balances, bells, bags, blacking, brushes (all kinds), baking-dishes, billies, braces and bits, black-lead, bellows, boilers, bedsteads, bolts, blocks, candlesticks, chains (various), candle-moulds, calanders, compasses, chisels, coal-scuttles, scoop and vase; corkscrews, coffin furniture, cash-boxes, door-scrappers, drippers, egg-whisks, slice and cups; fuse, frying-pans, funnels, files, fenders and fire-irons, fish-hooks, gimblets, grindstones, graters, glue, gridirons, gold-blowers, dishes and sieves, grates, gads, guns, glue-pots, hammers (all kinds), hoes, jelly-moulds, knives, a large assortment; knives and forks, knife-boards, kettles, lanterns, jacks, ladles, milk dishes, cans, strainers, sieves, and yokes; measuring tapes, mops, mallets, nails of every kind, pitch, picks, pumps, powder, pincers, piping, ploughs, quoits, quicksilver, rules, rope, resin, rivets, rasps, rakes, ship scrapers, sickles and bats, sloop-pails, saws of all kinds, sieves, sewing twine, sponges, scoops, sheep-shears, saucepans, shovels and spades, spirit-levels, soldering-irons, solder, spokeshaves, shot, steel yards, scales, screws, staples, stewpans, teapots, trowels, tar, tacks, tubs, tuc-irons, vices, waiters, washing boards and powder, window furniture of all kinds, writing cases, zinc, &c., &c.

Timber and Building Materials.—Shelving, 12 and 14 inches wide; T. and G. lumber

T. and G. Scotch Flooring, 4, 4, 1, 1, 1, 1 inch; beaded and plain match lining

Quartering, American hardwood, 3 x 1, 3 x 1, 3 x 2, 4 x 3, 4 x 6; mouldings, various sizes

Galvanised and painted iron, all sizes; rolled zinc, spouting, brackets, down-piping heads

modating from 200 to 300 head of Cattle, or from
5000 to 10,000 Sheep—have been erected on the
Flat immediately adjoining the Township.

Drafting Pens for Cattle are provided, so that
each party may have his stock sold in separate
pens.

250 Pages for 2s. 6d. !
To be had of the various agents throughout the

PROSPECTUS

= OF =

The Arrow Advocate

AND

SHOTOVER, MACETOWN, & CARDRONA

REPORTER:

A Weekly Newspaper, to be Published
AT ARROWTOWN EVERY FRIDAY

THE FIRST NUMBER

Will appear on

FRIDAY, 26th MAY 1871.

SUBSCRIPTION:

6/6 Per Quarter, Payable in Advance

THE PROJECTORS of the *ARROW ADVOCATE* have come forward to supply what has long been felt to be a want in the important District of which Arrowtown is the centre. They have done so in the full assurance of liberal support from the Commercial, Agricultural, and Mining classes of the community, whose interests it will be their earnest endeavour to advance.

The time has arrived when this District desires and deserves a Journal of its own, which shall be not only a disseminator of news, but the *ADVOCATE* of the rights of the Settlers. The resources of this extensive District require to be made known, as well as its wants. It is not too much to say that had the District possessed an independent journal,—an outspoken Organ of Public Opinion,—many of the evils from which the residents now suffer would never have existed, or would have been speedily extirpated. We shall consistently urge upon both the General and Provincial Governments the wants of the various localities included in our District.

With our rich and wide-spread auriferous deposits, and the extent and fertility of our agricultural lands, we may, with ordinary industry and prudence, and ordinary attention to our requirements on the part of the Government, look confidently forward to a long period of general prosperity. Inspired by this belief, we intend to bring the *ARROW ADVOCATE* before the Public; and while we promise to do all that we can to make known the wants and advance the interests of the place, we trust the Public will also feel it to be their interest to strengthen our hands, and accord us a liberal measure of support.

Considerable space will be devoted to the discussion of AGRICULTURAL TOPICS, and Articles from the pens of experienced Agricultural Writers will appear from time to time.

MINING MATTERS will receive adequate attention; and all New Inventions or Improved Processes having reference to Gold Mining will be carefully chronicled.

MARKET REPORTS.—The latest Stock, Grain, and General Produce Markets will be reported,—with the most reliable quotations. The value of this feature in the *ADVOCATE* will doubtless be recognised in the agricultural portions of the District.

The latest TELEGRAPHIC NEWS from all parts of the Colony, up to the hour of going to press, will be published in each issue; and the *ENGLISH MAIL NEWS* will be reported at the earliest possible time.

The *ADVOCATE* will afford an excellent Advertising Medium, as it will circulate widely through the entire Lake District, including Queenstown, Frankton, Shotover, Skippers, Macetown, Cardrona, &c.

WILLIAM FENWICK,

Town Clerk.

Council Chamber,

Cromwell, May 21, 1871.

Cromwell Argus.

TUESDAY, MAY 23, 1871.

To CORRESPONDENTS.—Owing to great pressure on our space, we again issue a Supplement, and are compelled to hold over our leading article and much other interesting matter.

The First Number of "THE ARROW ADVOCATE" will be published at Buckingham Street, Arrowtown, on Friday afternoon next.

"The Goldfields Permanent Freehold Land and Building Society" has just been formed at Clyde. Shares, £60; entrance fee, £1; monthly payments, 5s per share. Mr V. Pyke made an excellent inaugural speech.

One of the Chalmers employed by a newspaper at the Nevis recently met with an accident by a kick in the face from a horse, which he was foolishly attempting to catch by the tail! "John" was sent to the Dunedin Hospital, and has since returned, but his still complaining head is "welly sore."

A correspondent, writing from the Arrow says:—"We are all looking forward with interest to the appearance of the First Number of the *Arrow Advocate*; and if this interest may be regarded as a foreshadowing of its prosperity, the new journal will certainly be a success. But we were somewhat amused when we heard that there was 'another Richmond in the field,'—that another paper was projected. The second paper is to assume the title of the *Arrow Observer*: why not the '*Advocate Extinguisher*'? for the extinction of its rival would seem to be the only motive of any one starting a second paper here. The field has been long enough unoccupied, and the support of all the Arrow people will, without doubt, be given to those who first stepped in to supply the want so long felt,—especially as it is believed that the Proprietors of the *Cromwell Argus* will produce a Newspaper worthy of the District."

The action *Goodger v. Joel*, in the Clyde District Court, before Judge Gray, resulted in a judgment for the plaintiff for £25, with £8 18s costs.

The Royal Standard Quartz Battery is still employed in crushing for the Heart of Oak claim. A partial cleaning-up took place on Saturday night, and the result was considerably over 150 ozs. of gold. The quantity of stone put through up to Saturday evening was about 50 tons, and as the tables were only roughly cleaned up, much of the gold remains on the tables. The exact yield from the present crushing will be known in the course of a week.

A valuable and important discovery has been made at Bendigo Gully within the past few days. Messrs Murray and Halerow recently applied for and obtained an extended claim of two acres of ground which had been worked for a considerable time, but unsuccessfully, by Geer and party. The present holders of the ground had scarcely begun operations when they had the good fortune to discover an alluvial gutter, 15 feet in width, and having indications of extending through a large area. The prospect obtained was over a pennyweight to the dish of wash-dirt. Geer and party have since applied for permission to take up the unallotted ground between Allread and party and the claim in which the discovery above recorded was made; and we trust their enterprise will be well rewarded.

Mr C. Hastings has taken the contract for kerbing, channelling, etc., in Melmore-terrace. The contract is about £70.

"Taken to the Pound!" Thirty-one horses were yesterday morning driven from the Mount Pisa Station to the Clyde Pound. We are not going to comment on this unseemly proceeding. The fact is its own commentary. The station-holder probably supposes he is justified in taking such an extreme step; but we should like to see the point tried in a Law Court. This impounding of poor people's cattle is simply the result of the residents not having secured, in days past, adequate Commonage. It is not too late, however. Let the subject be discussed at a public meeting. Let us agitate for Commonage Rights, and remain no longer at the mercy of gentlemen who are themselves merely pastoral tenants of the Crown. It is only right to state that hitherto Mr Loughnan has evinced a very liberal spirit. Has he adopted impounding cattle in self-defence?

The Nevis miners appear to be highly gratified at the election of Mr Marshall as delegate to the Mining Conference. It will be seen, by referring to our condensed report of the proceedings of the Conference, that Mr Marshall is doing the District good service in Dunedin; and, in conjunction with Messrs Mount and Roberts, has been appointed to undertake the highly important duty of considering and reporting what provisions and bye-laws of the Victorian Mining Statute should be adopted by the Government. When Mr Marshall returns from the Conference he should be invited to give a public "account of his stewardship."

The Donkey Dilemma has not, we hear, been solved at Alexandra. Never before did donkey create such a sensation. "Balaam and his ass" was nothing to the Alexandra donkey and its rival owners. It is truly a wonderful quadruped; and we should not be surprised if a heavy law-suit resulted about him. Perhaps Perhaps Nelly may yet be introduced to the Supreme Court, where he might bray about at judge, jury, and witnesses. We do not know which to admire most—the harmless ass, or those who make so much fuss about the possession of a donkey. He seems to be something like a pendulum, oscillating between Clyde and Alexandra; but his rightful destination is said to be Alexandra.

The anniversary of the Queen's Birthday will not pass this year in Cromwell without some fitting celebration. The day will, of course, be observed as a general holiday. The Mayor, and other public-spirited gentlemen, have collected a sum of money which will be distributed in prizes for athletic sports, and otherwise for the amusement of adults and juveniles. For particulars we refer our readers to the advertisement.

We desire to call the attention of the proper authorities to the state of the Cromwell Bridge. To say nothing of the very noticeable "dip" in the structure, several of the planks are in a very worn condition, and require renewal. The "dock-planking" is usually in a very dirty and neglected state; the attrition caused by accumulations of gravel and manure certainly tends to destroy the planking of the bridge more quickly than necessary. It is not fair wear and tear. The bridge ought to be swept clean regularly twice or thrice every week. A coating of coal-tar would serve to preserve the wood-work from the effects of wind and weather. Perhaps Mr Bews, the District Engineer, will make a note of these suggestions.

The Cromwell Quadrille Assembly will meet, this week, on Wednesday evening in consequence of the Bannockburn Ball taking place on Friday.

We are glad to learn that, as the result of the recent agitation, Mr Pyke has made arrangements to hold Courts here weekly in future, on Thursdays, commencing on June 8. Courts will be held, however, on Wednesday, May 31.

Mr W. J. Barry held a most successful auction sale at Arrowtown, on Monday, last week, including about 140 head of Mr R. Lancaster's cattle; a lot of hicks; a buggy and pair; 120 steers averaged 7½ for head; a lot of draught horses, from Oamaru, realised prices ranging from £45 to £80; some drays, etc., were also sold,—the whole realising good prices.

The Foresters' annual Ball and Supper, Court Royal Oak of Kaurau, will take place on Friday evening, at Richards's Bannockburn Hotel, and bids fair to be very numerously attended.

Mr Chas. Pretsch, late of the All Nations Co., Bannockburn, announces by advertisement his intention to commence business in Cromwell as a painter and decorator. We wish him all success.

The case of *Smitham v. Marsh* came on for hearing in the Resident Magistrate's Court, Clyde, on Friday. Mr Wilson appeared for the complainant; Mr Marsh conducted his own case. After taking some evidence, and hearing argument, the case was adjourned to next Court-day at Cromwell.

A handsome new Court-house is being erected at Wanganui (North Island): when shall we get one in Cromwell? Echo answers, When!

It is not improbable that the Hon. Mr Sewell, Minister of Justice, and Acting Postmaster-General, will shortly visit this district, and the Northern Goldfields generally. He was recently at Hokitika on an official visit.

Another stage of the celebrated Telegram Libel Case has been reached. The rule nisi, obtained on behalf of Mr Barton (now of Queenstown), calling upon Mr Strode, R.M., to show cause why a *mandamus* should not issue to him compelling him to proceed with the information against Mr Lemon, Manager of Telegraphs, for a breach of the Telegraph Act, 1865, has been discharged by Judge Chapman. The learned Judge has decided that the information discloses a breach of the Telegraph Act; but is of opinion that he ought not to compel Mr Strode to proceed on the information, as the case comes more properly within the jurisdiction of the R.M. at Wellington. This is a monstrously wearisome case; we imagine that all parties concerned must be heartily sick of it. Our sympathies are strongly with Mr Barton. The *Bruce Standard* throws out an excellent suggestion:—"We have no doubt that the accusations brought against the Government by Mr Barton will be of signal service, and in whatever way the case may end, the public should signalise their approval of his bold denunciations of Government wrong-doing, by some tangible proof of their sympathy." Why should not the entire Press of the Colony subscribe to a Barton Testimonial and Defence Fund, and thus prove the genuineness of our sympathy with, and admiration of, our persecuted confère. We shall gladly co-operate in any such movement. (Since the above was in type, we learn by telegram that the Government have abandoned the prosecution.)

The *Wellington Independent*, an ultra-Ministerialist organ, is in a perfect phrenzy of enthusiastic delight over the arrival of the Nevada, and the successful negotiation by Mr Vogel of the New Zealand Debentures for £1,200,000. The following is an extract from a leading article which appeared in the *Independent* of May 9:—"But if there is one thing truly sublimely ridiculous, it is to hear Mr Stafford profess to know Mr Webb's steamboat business better than himself, and Mr Richmond, whose only financial experience has consisted in drawing £1000 a year in Ministries of which he was the weakness and the blot, giving gratuitous advice to the millionaires of Lombard-street, and pretending to know the value of security better than the habitués of the Stock Exchange! If the eminent financiers whom Mr Vogel has induced to invest in New Zealand securities on even more favorable terms than Dr Featherston anticipated—if they do not know their own business better than Mr Richmond, it would be but charity on his part to go home and enlighten them. He could there make a supreme effort (for we see no further chance for him here) to carry out the dearest wishes of his heart, viz., to disparage the reputation of Mr Vogel, and the resources of New Zealand!"

A new coal-pit has been opened at the Kyebrun, by Messrs Brown, Collingwood, & Co.

LATEST TELEGRAPHIC NEWS.

DUNEDIN.

TUESDAY, 10.45 a.m.

The General Government have intimated that they do not intend to prefer an indictment against Mr G. B. Barton at the approaching criminal sessions, on account of Mr Muston (sub-editor of the *Daily Times*, and a material witness) declining to give evidence. The Government intend asking the Home authorities to extend the Governor's power of pardoning in such cases if necessary.

BUCKLAND, May 16th.

MR NELSON, May 18th.

The Caledonian Co. have paid another fortnightly dividend of £10. Shares are at £102, ex div.

Some exceedingly rich finds have been made in the Tokatea claim at Coromandel, causing new excitement.

The report that the Waikato had surrendered their claim to the Aroha block is contradicted.

Telegrams from the Thames state that Mr Mackay's prospects of inducing Te Hira to open up the Ohinemuri country and the road to Tauranga are very encouraging. Mr Mackay has gone with the Ngatimaru to Te Aroha.

A great fire took place last Sunday morning in Pitt-street, by which ten good houses were destroyed. The loss is estimated at £6000, of which £1500 is insured in the New Zealand office, £1300 in the Royal, and £2300 in the Imperial. The fire originated suspiciously in an empty house.

The Nevada Luncheon Committee have a deficit of £40, which they will have to make up among themselves, although 160 guinea tickets were sold.

LAND SALE IN CROMWELL.

The Waste Land Board has a special aptitude for blundering. On Friday last, according to an announcement in that obscure publication, the Provincial Government *Gazette*, a Land Sale was to be held at the Cromwell Court-house at noon. Mr Chapple, the auctioneer, arrived in due time, but the Court-house was closed, and the Clerk was absent. What was to be done? The auctioneer promptly obtained permission to hold the sale in the Public Library, and soon after, Mr Chapple having assumed the functions of a public bell-man, he was seen perambulating Melmore-terrace, ringing a borrowed bell, and inviting the speculators in township sections to "roll up." Thus was the sale made known to persons who never see a Provincial Government *Gazette*, but who do regularly peruse this journal. This obscure mode of making known so important a public matter as the sale of land, is very reprehensible. It is most unbusiness-like, as it limits the competition at these sales to the few who by good luck, or extraordinary vigilance, find out when and where a land sale is to take place. If Mr J. T. Thomson, Chief Commissioner of the Waste Land Board, had any land of his own which he desired to dispose of to the best advantage, he would not bury his advertisements in an official *Gazette* of limited circulation. At Clyde, Alexandra, and in fact everywhere, the same complaint is made.

When Mr Chapple inspected the plan of the blocks and sections to be offered for sale, it was found that there was some grave error in the numbering of the blocks. He, therefore, adjourned the sale till 2 p.m., for the purpose of telegraphing to the Chief Commissioner of Waste Lands to rectify the error. In the course of an hour, the auctioneer received instructions to alter the number of one of the blocks—from IX. to XIV. The sections offered form part of the township, and front Melmore-terrace. There was an unusually spirited competition. The whole of the sections in Blocks XIII. and XIV. were sold at prices varying from £5 (the up-set price) to £21. The auctioneer could have sold the whole of another block, No. XI., had his instructions permitted him to do so. The total amount realised by the sale was £118 10s.

The following are the full particulars of the sale:—

	Block XIII.	£	s.	d.
Section 1—Wm. Grant	...	20	0	0
" 2—Jas. Taylor	...	21	0	0
" 3—Wm. Grant	...	7	0	0
" 4—Wm. Grant	...	6	0	0
" 5—Wm. Grant	...	7	0	0
" 6—Isaac W. Escott	...	7	10	0
" 7—M. Fraer	...	10	10	0
		£79	0	0
	Block XIV.	£	s.	d.
Section 1—M. Fraer	...	7	10	0
" 2—J. McCornick	...	6	0	0
" 3—J. Dawkins	...	5	0	0
" 4—Owen Pierce	...	5	10	0
" 5—Wm. Grant	...	5	10	0
" 6—Joseph Harding	...	5	0	0
" 7—Joseph Harding	...	5	0	0
		£39	10	0
Total	...	£118	10s.	

A great desire is expressed that other blocks should be surveyed and offered for sale, in the direction of Goodger's Yards and the Cemetery. Such sections would find a ready sale at good prices. The fact that the town sections on Friday realised such excellent prices, should encourage the Waste Land Board to make further surveys, and adopt a more liberal policy in publishing advertisements of Land Sales in Local Newspapers.

On Saturday, Mr Chapple visited Bendigo, but effected no sales. There fresh surveys are called for in the direction of Logan's crushing machine.

The *Cleveland Herald* makes the following truthful observations concerning country newspapers:—"The local paper is an absolute necessity to the country community where it is published. All the city papers cannot supply the place of the local paper. That should be the first love of every man and woman, for with the paper is the locality identified. The paper gives the country and town where it is printed much more prominence and importance in the world, and gives in detail more local news than can be gained from any other source. Every week's issue of the paper is so much local history, and the rise, growth, and development of the town and country can be measured and recorded only by the local newspaper that constantly is gathering its items. People do not properly appreciate their home newspaper. They measure the value of a newspaper too much by the number of columns it contains. The home paper at any price is the cheapest one can take, for in it is found the information to be obtained from no other source. Another thing is to be taken into consideration: every country district has one or more newspapers. Hence the circulation of each paper must be limited. There is therefore, the greatest need of activity and interest on the part of people to give their own paper vigorous and substantial support."

OCCASIONAL NOTES FROM THE METROPOLIS.

DUNEDIN, May 18.

The paddle-steamer Nevada—the pioneer boat of the new line recently started under contract with the Government of New Zealand—arrived from San Francisco via Auckland and other ports a few days since. Crowds of visitors have been down to Port Chalmers to see her, and the Harbour Steam-boat Company have reaped a rich harvest in passenger fares. I went down to see her in one of the steamers, which of course was crowded to suffocation. On the whole, though, we had a very pleasant day, and when we arrived at our destination we trooped on board the huge ship in such numbers as induced the Yankee mate who helped us up the steps to remark that "he guessed this was a tall turn-out," and one of the sailors supplemented the observation by further "guessing" that "we Britishers were a darned curious race." And there was, no doubt, very ample cause for the remarks of the two mariners, for ever since her arrival the Nevada has been placed under embargo by the inhabitants, who have been perpetually visiting her. I penetrated into every accessible corner, and everywhere found groups discussing whatever was worthy of notice. Down into the ladies' saloon, and you find them there, examining the comfortable though not expensively-furnished cabins: the gentlemen's quarters are still more crowded; down lower still amongst the polished machinery of the engines, and even among the soot-begrimed toilers in the coal-bunkers, where you can scarcely see your hands before you, are people still to be met with, pursuing their investigations and determined to see every thing that was to be seen; and when you ascend from the lower regions; and after mounting numerous flights of stairs finally reach the deck, you find the cook's territory is invaded, the bar has a thirsty throng before it; the hurricane deck is crowded with promenaders, and the cry is "still they come." Yes, the sailor was right, we Britishers "are a darned curious race." Yet the steamer was well worth a visit; and a merry trip up the harbour in the bright moonlight terminated the day's pleasure in an enjoyable manner.

The police have been making a raid upon the lower class of the *demi monde* in our city, and with the threat of divers pains and penalties in default of their doing so, have, with the assistance of the Resident Magistrate, succeeded in inducing a number of them to leave our shores; to prey upon society in some other province or colony. It is hardly acting up to the "do unto others as you would have others to do unto you" maxim, for the wretched creatures must find a harbour of refuge somewhere, and they will no doubt be as great a pest wherever they may drop anchor as they have been here. The houses lately occupied by some of the emigrants were dens of the most infamous description, and were the hotbeds of vice and crime of all kinds. But as it is a generally acknowledged rule that people must look after number one in this progressive 19th century of ours, I suppose we ought to be very thankful to the police and the magistrates for the ostracism of the unfortunates in question.

The Mining Conference has commenced its labours, and bids fair to be the means of some much-needed improvements being introduced into our goldfields legislation. From the great practical experience of all the members of which it is composed, and the clear, business-like tone which has characterised the discussion of the questions that have come before them, I have no doubt that the result of their labours will be valuable.

The graving dock at Port Chalmers, which has cost some £50,000, although not yet handed over to the Dock Trust, has been opened for the admission of vessels. The steamer *Phæbe* was the first vessel to enter it, and she is now undergoing some necessary repairs. There is a leak in the bottom of the dock which has caused some little uneasiness. There were some two or three feet of water in it on the day I saw it, and in the vicinity of the leak the water was bubbling up just as it is to be observed in a pool of water where there is a spring underneath. Whether they will be able to stop the leak or not, I cannot say.

ARCAHUM.

The Naseby Fire Brigade had to turn out on Saturday night week. They were, however, unable to extinguish the fire, which destroyed a miner's residence. It is high time a Fire Brigade were organised in Cromwell, but we suppose the residents will not bestir themselves in the matter until a disastrous fire among them from their false security. Perhaps a word of warning may have some good effect.

SHEPPERD'S
COMMERCIAL & FAMILY HOTEL,
 NEAR THE OUTGATE,
 GEORGE-STREET, DUNEDIN,
 (Late of Supreme Court Hotel).

 must be paid on or before TUESDAY, 23rd May
 current; and all Accounts owing by the Firm
 must be presented for payment on or before the
 same date.
 JAMES COSSAR.
 GILBERT STAITTE.
 Bannockburn, May 2, 1871.

THE MINING CONFERENCE.

(For report of Tuesday's proceedings, see page 7.)
 WEDNESDAY, MAY 17.

A letter was read from His Honor the Super-
 intendent, containing the following suggestions:
 —1. The consideration of legislation affecting
 the Goldfields, with a view of making practical
 suggestions as to the amendment and consolida-
 tion of existing Acts. 2. The recommendation
 of such alterations in the Regulations as may
 be suitable to the present condition of Gold-
 mining. 3. The application of Part III. of the
 Immigration and Public Works Act to the gold-
 fields. His Honor thinks that the most econo-
 mical, practical, and speedy mode in which the
 limited amount obtainable by this province can
 be applied is by advancing money on loan at not
 exceeding 5½ per cent. to companies already in
 existence, or which may be formed hereafter,
 the Government to advance the money upon
 such terms as shall recoup itself, and as shall
 provide for the supply of water at the lowest
 possible rate.

The following is the substance of the reply of
 the Conference:—

"As the consolidation of the various Statutes
 affecting the Goldfields appears to be the primary
 duty of your Commissioners, and as the future
 regulations of the Otago goldfields must be based
 on the consolidated and amended Statutes, they
 suggest that the consideration of the latter sub-
 ject be postponed until the amended Statute is
 before them. They therefore suggest that upon
 the conclusion of their inquiries upon the other
 subjects remitted to them, they should adjourn
 their sittings until after the next session of the
 General Assembly. The suggestions on Part III.
 of the Immigration and Public Works Act will
 receive earnest consideration."

THURSDAY, MAY 18.
 The Commissioners were engaged yesterday
 and to-day in considering suggestions, advisable
 as amendments and alterations in the Goldfields
 Act, 1866.

On the motion of Mr Shepherd, it was agreed
 that clause 21 of the Goldfields Act shall apply
 to Crown lands as well as to private lands; and
 it was agreed that a sub-committee, consisting
 of the Chairman, Messrs Roberts and Marshall
 (delegate from the Dunstan district) be appointed
 to consider and report what provisions and bye-
 laws of the Victorian Mining Statute should be
 recommended for adoption by the Commission.

WARDEN'S COURT.

WEDNESDAY, MAY 10.
 (Before Vincent Pyke, Esq., Judge and Warden.)

UNLAWFUL INTERFERENCE.
 Robert Brydon and others v. Alex. Rintoul
 and others.—Defendants were charged with un-
 lawfully interfering with complainants' claim.
 After hearing evidence, the Warden prohibited
 defendants from entering on or interfering with
 plaintiffs' claim as now marked out. Plaintiffs
 to pay costs of Court, 11s; and each party to
 pay their own costs otherwise.

APPLICATIONS.
Extended Claims.—A. Fleming and another,
 two acres, Smith's Gully; R. Bell and two others,
 three acres, opposite Kawarau Gorge, on river
 bank; Wm. Todd and two others, three acres,
 at Sandy Point, east bank of Kawarau; Samuel
 Halerow and another, two acres, 400 yards east
 of Bendigo Gully,—all the above were Granted.
 —William Aldred and two others, three acres,
 1½ miles below the junction of the Lindis and
 Clutha; to be granted if advertised and not ob-
 jected to.
Tail Race.—Sam. Halerow and another, from
 extended claim, 400 yards east of Bendigo Gully
 granted.

Protections.—Robert Brydon and five others,
 60 days, for a quartz claim, No. 1, north-east of
 the Golden Crown, Carrick Range, to test reef:
 granted.—Jas. Thompson and another, 60 days,
 for alluvial claim in Smith's Gully, owing to
 want of water: granted.—Wm. Watson and five
 others, 60 days, for Golden Crown quartz claim:
 granted, two men to be employed.—J. Bruce and
 two others, 60 days, for alluvial claim, Doctor's
 Flat: granted.

Water Races.—Matt. Gaffney and two others,
 from two miles above Loughnan's "dip," in the
 Eleven-mile Creek: granted.—Wm. Todd and
 another, extension of licensed water-races from
 half-mile south-east of Kawarau gorge: granted.
 Edw. O'Brien and another, one sluice-head from
 Eight-mile Creek, Upper Clutha. Objected to
 by W. H. Day. Refused.—Frs. Lyons and an-
 other, for three sluice-heads, from Clear-water
 Creek, seven miles to the north-east of Bendigo:
 granted.

Dam.—W. Todd and two others, for a dam a
 Sandy Point: granted.

Residence Areas.—Gilbert Staitte, for one acre,
 70 yards west of Royal Standard Co.'s crushing
 machine, at Bannockburn. Objected to by R.
 Kidd. Refused.—T. H. Carpenter, one acre,
 twenty yards west of the Royal Standard Co.'s
 machine; Wm. Watson, for one acre, adjoining
 the above; J. Barr, 200 yards, on north side of
 Smith's Gully: all granted.

Agricultural Lease.—J. Maclean, for 640 acres
 between Ardour Station and Dry Creek. Ob-
 jected to by Jas. Crowther and 73 others. Ad-
 journed for surveyor's plan to be furnished.

The 24th inst. being the anniversary of the
 Queen's birthday, no Courts will be held on that
 day, but on the 31st inst.

BENDIGO.

(From a Correspondent.)

May 20, 1871.

The chief topic of interest just now on the
 goldfields being the question of Water Supply,
 a few words as to our claims to be classed among
 the sluicing districts may not be considered out
 of place.

This locality has hitherto been commonly as-
 sociated with purely reefing matters, so it may not
 possibly be uninteresting to your readers to learn
 that the sluicing interest bids fair to overtop
 that of the reefers. Quartz-reefing has been
 found to be, at best, but a precarious pursuit,
 requiring much patience and more capital to
 bring it to a successful issue; so many of our
 prominent quartz-miners are turning their at-
 tention to hydraulic mining, the area of payable
 ground being found by prospecting to be almost
 unlimited. The Aurora water has been rented
 by Hazlett and party, who are cutting an exten-
 sive head-race to the terraces on the Clutha be-
 low the junction of the Lindis with that river,
 where already another party have been sluicing
 with water from Shepherd's Creek for upwards
 of two years with excellent results. Aldred and
 party are constructing a race from Bendigo Gully
 to the terraces lying below Hazlett's claim.
 Horrigan and Co. have obtained a grant of Dry
 Creek, and intend bringing in water at once to
 Kohinoor Gully: this will be an undertaking of
 considerable magnitude. Lastly, a party have
 rented the Rise and Shine Co.'s tail-water, at
 present flowing down Bendigo Gully, and have
 applied for a tail-race to sluice the low-lying
 spurs between Shepherd's Creek and Bendigo,
 the water to be diverted below the Alta Co.'s
 mill. Naturally the change in the direction of
 so much labour in a small community like ours
 would be likely to produce some complications;
 but I think we were scarcely prepared for such
 as have arisen. In the first place, Mr McLean,
 of Ardour Station, has applied to purchase 640
 acres of land, the said land being proved to be
 auriferous, and absolutely necessary, now and
 hereafter, as an area whereon to stack tailings
 from sluicing claims in the vicinity; and in the
 second place, Mr Logan objects to having dirty
 water sent down Bendigo Creek, or interfering
 with his quartz-crushing, the mill being placed
 at the mouth of the principal outlet for the dis-
 trict, a mistake, for which it is to be hoped the
 community here will not be made to suffer.
 Should either the foregoing application or objec-
 tion be entertained, a great blow will have been
 struck at the material prosperity of the place,
 and many who now think to settle down here
 permanently will find their hopes vanish like the
 "baseless fabric of a vision." Here is a fine op-
 portunity for the gentle exercise of the moribund
 bugbear, "discretionary power." I trust it
 may, in this case, be made to perform the grace-
 ful act of conferring the "greatest good on the
 greatest number."

QUEENSTOWN.

(From our own Correspondent.)

May 20, 1871.

Since I last wrote we have experienced some
 of those unpleasant changes in the weather which
 herald the setting in of winter. During the
 week it has rained heavily, and the mountains
 have been completely covered with snow, though
 as yet none has fallen in the town. To-day
 however, the sun is shining merrily and the
 snow is disappearing rapidly.

Our local brewers, Messrs Surman and Davis,
 have added another industry to that of brewing,
 the manufacture of malt. They have built a
 large stone and brick malt-house, at a cost of
 about £1000, and are now in full working order.
 They inform me that the barley grown in the
 district will enable them to turn out a sample
 of malt superior to any imported. The malt-
 house will well repay a visit, should any Crom-
 wellites come this way, and added to the other
 conveniences now possessed by this firm will
 ensure them against anything in the shape of
 opposition.

A Dunedin photographer, Mr Mussen, has
 been staying here for the last three weeks, and
 appears to be doing a large amount of business,
 judging from the numerous visitors he has had.
 He has taken, for a time, the new studio just
 erected by Mr Richardson, in Ballarat-street,
 which appears to answer admirably. Mr Mussen
 proceeds from this place to Cromwell, where no
 doubt many will take advantage of his skill in
 portrait taking.

People here hailed with delight the starting
 of the *Arrow Advocate*, as conducing to improve
 our local organ, and reduce the existing high
 rates for printing. Last night we were favoured
 with another prospectus, that of the *Arrow Ob-*
server, which it is whispered might be more pro-
 perly named *The Wakatipu Mail Protector*, as it
 is no doubt started with a view of driving the
Arrow enemy off the field. So far as I can hear,
 however, it will not, vulgarly speaking, "stand
 a show" against the *Advocate*, which appears to
 be meeting with great support throughout the
 district.

New buildings are starting up like mushrooms
 all over the town; but the giant store of Messrs
 Hallenstein and Co., now approaching comple-
 tion, puts all others in the shade. Mr Hallen-
 stein has kindly lent the store for the ball to
 be given by the Hospital Committee on Tuesday
 week, so we look forward to an enjoyable dance,
 with plenty of elbow-room—a novelty in Queens-
 town.

CROMWELL TOWN COUNCIL.

The usual fortnightly meeting of the Crom-
 well Town Council was held in the Town Hall,
 on Tuesday evening last.

Present: The Mayor (Mr Smitham) and Cms.
 Dawson, Dagg, and Brown. The minutes of
 the previous meeting were read and confirmed.
 Outward correspondence was read and approved.
 Letters were received from Mr H. A. Stratford,
 Mr J. G. Ballard, (Secretary of the Library
 Committee,) and Messrs Mills, Dick and Co.

TENDERS.
 The following tenders for kerbing and chan-
 nelling Melmore Terrace were opened:—T. and
 J. Escott, £19 19s; Charles Hastings, kerbing,
 £5 10s per chain—channelling, £2 per chain;
 John Hurley, kerbing, £5 15s per chain—chan-
 nelling, £3 15s per chain. The tender of Messrs
 Escott, being informal, was not considered; and
 upon the motion of Cr Dagg, seconded by Cr
 Brown, Mr Hastings' tender was accepted.

PROPOSED SALE OF TOWN HALL.
 The consideration of Mr Ballard's letter—
 stating that the Library Committee were willing
 to purchase the Town Hall, and asking for fur-
 ther particulars—was deferred till the next
 meeting.

FINANCE.
 Mr Hastings' account, £9, for building two
 culverts over the Town-race, was passed for pay-
 ment.

MEMORIALS.
 The Town Clerk was instructed to draw up
 two memorials to His Honor the Superintendent
 —one of them asking for Weekly Courts here,
 —and one to the Postmaster-General, asking
 that the salary of the Postmaster (Mr Ballard)
 might be increased, as it is totally out of pro-
 portion to the onerous character of the duties
 which he performs.
 This concluded the evening's business.

ALEXANDRA.

(From our own Correspondent.)

On Friday night, about 10 o'clock, a very se-
 rious accident happened to a young man named
 Robert Cannell, in the employ of Mr O'Regan,
 butcher, here. The man was at work at a saw-
 mill, when his hand was drawn into the cog-
 wheels, almost tearing off three fingers,
 and terribly lacerating his hand and arm. Mr
 W. J. Barry, who happened to be present, bound
 up the mutilated limb, and arrested the bleed-
 ing, which was very profuse, and conveyed the
 unfortunate young man to the Dunstan Hospi-
 tal, where he was promptly attended to by Drs
 Burrows and Thomson, and is now under the
 care of the Resident Surgeon. The case is, it is
 feared, a serious one. It is remarkable that it
 was only last week that I had to record a fatal
 accident to another young man who was in the
 employ of Mr O'Regan.

RESIDENT MAGISTRATE'S COURT.

MONDAY, MAY 15.

(Before Vincent Pyke, Esq., R.M.)
 Duly and M-Kersey v. Gilbert.—Claim, £1
 11s. 6d. Settled out of Court.
 Samson v. Gilbert.—Claim, £7 5s. Settled
 out of Court.
 Rivers v. Geo. Rogers.—£7 0s. 11d., for goods
 supplied. Summons not returned.
 John Cox v. Lancaster.—Breach of agreement
 concerning the sale of a donkey, £50. Settled
 out of Court.

T. Cummins v. Carey.—Claim, £8 10s. This
 was adjourned to 29th May.
 Cummins v. O'Brien.—Claim, £27 15s 5d.
 This case also was adjourned to May 29.

Cummins v. Carey.—This was a case of as-
 sault, and had to be adjourned for the produc-
 tion of a material witness.

D. Robertson's application for a renewal of
 his slaughtering license was granted.

SATURDAY, MAY 20.

(Before W. THEYERS, Esq., J.P.)
 James Gough was charged with being drunk
 and disorderly, and was fined 10s, or 24 hours'
 imprisonment.

WARDEN'S COURT.

MONDAY, MAY 15.

(Before V. PYKE, Esq., Judge and Warden.)
 Battolph v. Oliver and Knowles.—This was
 an application to cancel defendants' license for
 water race at Blackman's, and was adjourned.
 Cummins v. Carey.—Plaintiff claimed £30,
 being the price of a share which he had sold to
 defendant. Mr Brough appeared for plaintiff,
 and Mr Wilson for defendant. The case was
 adjourned.

Halley applied for leave to construct a
 tail-race. Messrs Murphy, McClusky, and
 Lynch each objected. Mr Wilson appeared for
 the applicant, and Mr Brough for the objectors.
 The hearing was adjourned by consent, a report
 to be made by Mr Knowles, and furnished to the
 Court before May 29.

Noble and party were granted 90 days' pro-
 tection for an extended claim at Golden Beach.

P. Carroll's application for protection was re-
 fused.

M. Bourke, Spear Grass Flat, did not appear
 in connection with his application for an ex-
 tended claim of one acre.

Lees and party applied for an extended claim
 of six acres at Conroy's. Oliver and Knowles
 objected, and were represented by Mr Brough;
 Mr Wilson appearing for the applicants. The
 application was granted.

Iversen and party were granted a site for
 quartz-crushing machinery.

John Terry's application for a mining lease of
 ten acres was adjourned for the production of
 mining surveyor's plan and report.

J. Drummy's application of a similar descrip-
 tion was similarly dealt with.

Large numbers of "new-chum" Chinese
 have lately been in Cromwell, on their way to
 various alluvial diggings. The "new-chum"
 Chinaman is as unmistakable as his European
 prototype. The number of Chinese returned in
 December, 1867, was 1185. The increase during
 the three years is 1392,—the census total being
 2577. As upwards of 300 Chinese have recently
 arrived in Otago (since the census was taken)
 direct from Hong Kong, the number now in the
 Province is about 3000. It is wonderful how
 Mr Shepherd, M.H.R., continues to exist under
 such an increasing Mongolian load.

MINING NEWS.

Dredging operations are about to be begun on Hartley's Beach, just below Cromwell Bridge; the proprietors of one of the largest dredges on the river having with great labour brought her up the Molyneux River from below the Teviot.

A correspondent from Alexandra informs us that Conroy's Quartz Mining and Crushing Co. have got all the timber on the ground necessary for erecting the machinery and buildings. The road from the reef to the machinery is now completed. They have put in a long tunnel, and the reef is said to be looking splendid. In Butcher and Conroy's Gullies all the tail-races are in full work, but as yet none are washing up. Most of the dredges on the river are again in full work; and the river bank claims are starting to work again. The Owens Water Race Co. are applying for new ground (an extended claim) above Butler's Point on the main river, anticipating that they will strike the same lead as yielded so richly at Butler's Point. The Manuherikia Co. are working on the river bank near Mutton Town, but with what result is not known.

Our Nevis correspondent writes as follows:—The last rain we had has swamped several good paying claims. It is very disheartening to men when they see perhaps months of hard labour thrown away just as they are commencing to reap the golden harvest.—Winter seems to be setting in earnest. The frost is as sharp now as it was any time last year, and if it continues the sluicers will have no water to work with.

It is reported that the few miners at work on the Port Molyneux beach are realising good returns of the precious metal, one party of three having netted no less than 200 ozs. of pure gold in three weeks.

The West Coast must be a lively place at present. The *Greyouth Evening Star* in a recent number says:—"Never within our recollection were there fewer matters of either interest or import on the West Coast to record than at present. From Okarito on the south to far beyond Greyouth on the north, nothing has occurred worthy of special mention; and unless something of startling interest or deepest moment occurs, the newspaper writers' occupation in this part of the Colony will collapse."

Prospecting is still prosecuted in the Hawke's Bay Province, a "prospecting party" having been maintained for a long time past at the public expense: they are now in the neighbourhood of Taupo. They report as follows:—"After trying a few places in the neighbourhood of the Oaranga, we made for the river named on your map—'Duffer's Gully,' which was followed up to its source, finding gold here and there all along the upper part of it, although in quantity too small for working. The auriferous deposits are there scattered about with the same evenness as in the districts we prospected further south, and we are now more than ever impressed with the belief that it is in quartz that payable gold must be looked for. We have found two or three reefs, traceable along the surface for some distance, and have brought away samples of the stone, which looks promising enough. We are now about to proceed up the Tauranga, which, with its tributaries, we intend giving a fair trial. It is almost our last hope of finding any payable alluvial or creek workings."

Like all new methods for working auriferous beds, the dredging system did not prove an immediate success on the Shotover. In fact, so unlucky have been the various dredge companies that those wise prophets everywhere to be found condemned the system as a failure. However, some who have met such ill success as would deter most men from proceeding further, have persevered in spite of all difficulties, and we are glad to say, are now reaping the reward their plucky efforts deserve. We more particularly allude to Messrs Ashcroft, Greaves, and Co., who lost one dredge before they had properly tried their claim at the Sandhills. This firm proceeded to build another, but up to the Easter holidays met with but qualified success. Since then they have obtained over 1000 ozs. of gold. The gold is coarse in description, varying from a pennyweight up to three-quarters of an ounce piece. The firm, believing that they have hit upon the proper way to work the ground, are about to build a second dredge.—*Wabait Mail*.

The following interesting letter was recently addressed to the *Thames Advertiser*:—"Sir, As the loss of gold and quicksilver at some of our machines is something enormous, will any amalgamist kindly inform us if he has tried amalgamation without putting mercury in the stamper-boxes, so as to avoid the beating-up of silver into infinitesimal particles when pounded with some of the baser metals. About a year ago, one of your correspondents highly recommended the use of perforated plates over copper plates and mercury troughs; and instead of putting silver in the boxes, now and then to sprinkle a little over the perforated plates, the frequency of the operation, and the quantity of silver used, being regulated by the quality of the stuff crushed. The amalgam would thus be chiefly in the form of cones upon the copper, and in the shape of balls in the troughs. If this has been tried, what has been the cause of failure? Some gold is said to be so fine that in distilled water it would not precipitate in less time than from five to ten minutes, and the judicious use of perforated plates is said to save more fine gold than the ordinary smooth tables. In California the treatment of ores containing antimony, ar-

senic, sulphur, is said to be much more economically and profitably carried on by Paul's Electric Dry Amalgamating Process than by any other known practical system of amalgamation. At Nevada, many tests were made, and the yield largely exceeded that from barrel amalgamation, or Wheeler's pans. But what is the 'Electric Dry Amalgamating Process'?"

In mining operations about Blacks and surrounding district, matters have been pretty quiet of late. The Ida Valley Deep Lead, at Blacks No. 3, is still progressing steadily, having forwarded to Dunedin, per last escort, about 100 ozs. of gold. They are again washing up about 120 loads of dirt, which is expected to yield as usual. Blacks No. 3, where the lead is situated, seems to be going ahead, there being already three hotels, three stores, and a boarding house in course of erection. Besides the present company now working, there are two other companies forming, for the purpose of sinking.

THE MINING CONFERENCE.

TUESDAY, MAY 16.

The Mining Conference met in Dunedin on Tuesday, the 16th inst., and continued its sittings throughout the week. We take the following report from the *Daily Times*:—

Mr Mount was appointed Chairman on the motion of Mr Shepherd, and the Conference then proceeded to pass regulations regarding their order of business.

The consideration of the Goldfields Act, 1866, and the various amendments, was entered upon section by section. A very general feeling was expressed that it is desirable in any consolidation of the Goldfields legislation, that matters not immediately connected with and separable from gold mining should be dealt with by separate and special Acts of the Legislature. This opinion was enforced more particularly with regard to Native lands and the question of settlement, which were generally adjudged not to be within the special functions of the Commission. Resolutions to this effect were given notice of by various members of the Commission for consideration at the next sitting.

Some discussion ensued as to the propriety of extending the provisions of the Goldfields Act to all waste lands of the Crown, without the necessity of proclaiming goldfields. The system in force in New Zealand was contrasted with the law in force in Victoria, where the Mining Statute is made applicable in the same way, and instead of goldfields being excepted, and set apart specially, the lands reserved for mining were excluded from the operations of the Act. The applicability of the Victorian statute in this respect was considered, and it appeared to be the opinion of the delegates that if Native lands were dealt with specially, no difficulty would arise; and that it was not the duty of the Commission to consider the consequences of these recommendations, but the duty of the Government to adapt the general legislation so far as possible in that direction.

The question of the tenure of mining property, and the desirability of making it more secure by adopting the Victorian system of issuing miners' rights for terms of years, and of consolidated miners' rights, met with very general approval. Various notices of motion on the subject of tenure were given. The question of the tenure of water rights seemed especially to absorb the attention of the delegates. The exception of two sluice heads of water in favour of the holders of claims along the course of creeks will no doubt give rise to serious debate, and seems to be the subject of some difference of opinion. The weight of opinion expressed seemed, however, to be, that this exception should only operate as a restriction on the original grant, not having any effect to deprive holders of water rights, who have expended capital and labour in constructing races, of any portion of the right originally granted.

A very general determination was expressed in favour of limiting the power of Wardens to the powers expressly conferred by law, annulling the discretionary power; and it was suggested that it would be desirable to give the administrative power to a Local Board, in order to avoid giving to the Wardens the power as well to make grants as afterwards to adjudicate upon them.

Judging from the spirit with which the Commission have entered upon a difficult and probably thankless task, and the evident desire to avoid entering upon subjects not strictly within the scope of their enquiries, as well as the general acquaintance which the delegates appear to have with the various difficulties of mining legislation, we may confidently anticipate very valuable results from their labours. The idea of separating from purely mining legislation all questions concerning the land laws, public works, &c., is a judicious one, and calculated to lead the Conference to the consideration of the subject in a calm and impartial light. The Government has placed at the disposal of the Commission all the latest legislation on the subject, in Victoria as well as all other countries where the mining interest has assumed any importance. We hope the General Assembly will adopt liberal and intelligent views with regard to the conclusions which may be arrived at by the Conference.

The following is from the *Dunedin Star* of May 15:—"We gladly hail, therefore, the announcement that the present Ministry intend not only to consolidate the laws affecting the goldfields but

to propose a measure that will meet the changed circumstances of affairs. The Ministry deserve credit for the attention they have paid to the matter. We know that they have carefully studied for the Victorian Blue Books, and not content with this, they employed Captain Baldwin to report on the state of mining in California. We trust the Conference will give attention to that report, especially to that portion relating to water rights. The Conference will naturally only reflect the opinions of Otago miners in minor details, but on the more comprehensive questions affecting the gold-mining industry as a colonial interest, their views will naturally be those current amongst the class they are supposed to represent. We say suppose, because the election of delegates has been decided evidently upon personal grounds of fitness, not upon any declared opinions. Very great powers have thus been given to the members of the Conference; and further, because goldfields interests and views are much alike throughout the Colony. We are also glad to see that at the Thames and at the West Coast goldfield is the miners are alive to the importance of making their requirements known to the Government.

We are afraid the Conference will not rise to the occasion. The miners, in electing delegates, seem to have generally considered that their duties would consist chiefly in revising the regulations. These have only recently been framed by a Board of Wardens, and act well on the whole; any interference with them by the new body would only lead to a system of tinkering. Such narrow duties are not required. What the Government looks for is suggestions for the better government of the goldfields, so as to promote their social, permanent, and material prosperity.

A Strange Story.

The Hartford (Connecticut) Journal relates the following interesting story of the grave of the late Roger Williams, the founder of Rhode Island:—"Ninety years after his death—that is in 1771—steps were taken to erect some suitable monument to the memory of the founder of Rhode Island, but the storms of the revolution came on and the work was forgotten. Recently the subject has been revived, and Roger Williams may yet have some outward sign to mark and perpetuate his name. The precise locality of his grave has been carefully ascertained and examined. On scraping off the turf from the surface of the ground the dim outlines of seven graves were found, contained within less than one square rod. In colonial times each family had its own burial ground, which was usually near the family residence. Two of these seven graves were those of children, the remaining four were adults. The easterly grave was identified as that of Mr Williams. On digging down into the "chapel house," it was found that everything had passed into oblivion. The shapes of the coffins could only be traced by a black line of carbonaceous matter—the thickness of the edges of the side of the coffins, with their ends distinctly defined. The rusted remains of the hinges and nails, with a few fragments of wood and a single round knot, was all that could be gathered from his grave. In the grave of his wife there was not a trace of anything save a single lock of braided hair, which had survived the lapse of more than 180 years. Near the grave stood a venerable apple tree, when and by whom planted is not known. This tree has sent two of its main roots into the grave of Mr and Mrs Williams. The larger root had pushed its way through the earth till it reached the precise spot occupied by the skull of Roger Williams. Then making a turn as if going round the skull, it followed the direction of the backbone to the hips. Here it divided into two branches, sending one along each leg to the heel, where both turned upwards to the toe. One of those roots formed a crook at the knee, which makes the whole bear a very close resemblance to the human form. The graves were emptied of every particle of human dust. It is known to chemistry that all flesh and the gelatinous matter giving consistency to the bones, are resolved into carbonic acid gas, water, and air, while the solid lime dust usually remains. But in this case even the phosphate of lime of the bones in both graves was all gone. There stood the "guilty apple tree," caught in the very act of "robbing the grave." The organic matter of Roger Williams had passed into woody fibre and bloomed in the apple blossoms, and had become pleasant to the eye; and more, it had gone into fruit from year to year, so that the question might be asked, who ate Roger Williams?

In Peekskill a paper speaks of a departed citizen, who was "struck down by the hand of Providence, and not permitted to finish the French roof he had commenced on his house."

There is a verdict on record in one of the counties of Minnesota, rendered in a murder trial, in the following words:—"Not guilty if he'll quit the State."

EXTRACTS FROM EXCHANGES.

The *European Mail* says that on Thursday, Feb. 16, at 9 p.m., a London establishment received a message which had been sent, *via* Teheran, from Kurrachee, India, on Friday, Feb. 17, at 12.43 a.m. The message was, therefore, received in London the day before it was sent from India! The time actually occupied by the message in transmission was 50 minutes; the sun would require 4 hours 26 minutes to do the same distance, and as the message was sent so soon after midnight, the extraordinary effect is produced of its arriving the previous evening.

The members of the Ministry (says the *Wellington correspondent* of the *Daily Times*) still adhere to their policy of providing for their friends at the public expense, and the latest instance of this has created some little amusement. Recently a steamer brought from Melbourne a gentleman of the name of Edwin, formerly a lieutenant in H.M.S. Falcon, and, to the intense astonishment of most people, it soon became known that he had come out from England for the purpose of taking an appointment in the Marine Department—that of Examiner of Masters, or something of the kind. The office is an entirely new one, and entirely unnecessary; but there is a good salary attached to it. The reason why this gentleman was brought out from England to fill it may perhaps be found in the fact that he is also to be married to a sister-in-law of Mr Gisborne!

There is a legend of ancient days in Melbourne (says the *Thames Evening Star*), when rich diggers and money were, and prudence oftentimes was not. A digger took his bride (of half-an-hour) into a shop in Bourke street, and asked for a handsome shawl for the fair one. A shawl, value £50, was shown, and taken. In payment the digger tendered a £100 note. The shopman was suspicious of so large a sum, and muttered something about not having change, in hopes of getting the £50 itself. But his innocent attempt at deceit was baffled by the superior innocence of the digger, who replied, "Oh, damn the change! give us another shawl!" I saw a shawl case on a small scale at the toll-bar of the Grahamestown Wharf the other day. A gentleman miner, who was rich and drunk, on the sale, perhaps, of £10 worth of scrip, tendered a sixpenny silver coin in payment. The tollkeeper had not the change, and the digger was as unwilling to trust him with so large a sum as the tollkeeper was unwilling to let the digger through on credit. Therefore a deadlock occurred. At last the digger, with a compound smile of ineffable satisfaction at his wisdom and ineffable contempt at the tollkeeper's stupidity, passed solemnly five times backwards and forwards through the tollgate, and, saying "there's your change, now we are quits!" was proceeding on his way, when he found that, after all, he was still on the wrong side of the gate. This opened up a new train of thought for the digger, who at last put down another sixpence, and bestowing a benediction on the change, disappeared through the turnstile.

Some young rascals were annoying an old gentleman by snowballing his house. He rushed out and caught a youngster who was standing on one side and looking on, and thinking him to be one of the offenders, began to administer a severe flogging. But, to his surprise, the harder he whipped the harder he laughed, until he stopped and sought an explanation. "Well," said the boy, "I'm laughing because you're awfully sold; I ain't the boy."

ECCECITIES OF AUTHORS: BY JOHN BILLINGS.—Bulwer hit "Night and Morning." What he did with the rest of the day is not stated. Collins hit "After Dark." Perhaps he couldn't write so well by day. Le Fanu hit "All in the Dark." I don't see how he could do it without a light. How could he dot the i's or cross the t's? Some other wrote "Bound in the Wheel." An uncomfortable position to write in, bound to a wheel. Thackeray hit "Four Years in the Saddle," so tired. He must have had a "quiet horse." Some other wrote "All for the Best." That must have been Seward; that's him clean through. Miss Mulock wrote "Nothing New." This could be said of many others with propriety. Harrington hit "Inside." I take it for granted that most people do. It wouldn't be comfortable sitting on the sidewalk in rain. Some other who didn't give his name wrote "Altogether Wrong." Many have copied from his stile, but how had the efrintery to give us their names, been lost to shame. Mrs Mackenzie Daniels wrote "After Long Years." Sensible woman. If saw of the rest of em would wait till they got to the age of discretion, it would be better for all concerned.

RAILWAY FOUNDRY.

FRASER, HARKNESS, & CO.

Beg to announce to Importers of Machinery, Ironmongers, Mechanics, and the Public generally, that as it has been found necessary, to advance with the increasing prosperity of Otago, to establish another IRON FOUNDRY to meet the want felt by a large portion of the community, they have erected a Foundry in Great King-street (opposite the Hospital), complete in every respect for CASTING Iron and Brass, in all its branches, on a large scale.

They have also determined their prices shall not be influenced by the exorbitant charges made by the trade in Dunedin, but that all castings shall be charged strictly in proportion to, if not under, Melbourne prices.

All orders will be promptly attended to, and personally executed by one of the firm.

All kinds of castings in Iron and Brass done

Stampers, Quartz-Crushing machinery, Cast Iron Sluice and Ripple Plates, Overshot Breast and Undershot Water-wheels. Castings supplied for all kinds of Reaping and Threshing Horse-power Machines.

Furnace Bars. Fire-proof Doors and Safes.

Flax Dressing Machines made to order.

Models intrusted to them will be taken care of as requested.

DAVID R. HAY.

Holloway's Medicines

ALL CURES MADE EASY
HOLLOWAY'S OINTMENT

Bad Legs, Ulcers, Sores, Bad Breasts, and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied. A sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas, and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; the most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout, and Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and incontracted. A cure may always be effected even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm, and other Skin Diseases.

After fomentation with warm water, the utmost relief and speediest cure can be readily obtained of all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate depravity of the blood and derangement of the liver and stomach; consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will readily be improved, although the eruption may be driven out more freely than before; and this should be promoted. Perseverance is necessary.

Sore Throats, Diphtheria, Quinsey, Mumps and all other Derangements of the Throat.

On the appearance of any of these maladies, the Ointment should be well rubbed at least thrice a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat. This course will at once remove inflammation and ulceration. The worst cases will yield to this treatment, if the printed directions be followed.

Scrofula, or King's Evil, and Swelling of the Glands.

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure, the liver, stomach, and bowels, being much deranged, require purifying medicine to bring about a cure.

Both Ointment and Pills should be used in the following Disorders:

Bad Legs	Scalds
Bad Breasts	Sore Nipples
Burns	Sore Throats
Bunions	Skin Diseases
Bite of Mosquitoes and Sandflies	Scurvy
Coco-bay	Sore Heads
Chiefo-foot	Rumours
Chilblains	Ulcers
Fistulas	Wounds and Yaws.
Gout	Cancers
Glandular Swellings	Contracted and Stiff Joints
Lumbago	Elephantiasis
Piles	Chapped Hands
Rheumatism	Corns (soft)

There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patient in every disorder are affixed to each box, and can be had in any language—even in Chinese.

ADDRESS LABELS, Auction Bills, Bill-heads, Business Cards, Bye-Laws, Catalogues, Circulars, Concert and Ball Tickets, Envelopes, Handbills, Pamphlets, Posters, Receipt and Delivery Books, Testimonials, and all kinds of Plain and Ornamental Printing, at moderate prices.—ARGUS PRINTING ESTABLISHMENT, Melmore Terrace, Cromwell.
